

Two Hotels

Angela: I've found these two hotel brochures. Let's look at them closely for the holiday. The first one is Alba Hotel. It's a nice small hotel near the city center. The second one is Conrad hotel by the seaside.

Mike: Let's compare them, then.

Angela: Alba is a boutique hotel and don't have many facilities. It's **cheaper** than Conrad

hotel.

Mike: Yes, you're right. Besides, it's **lovelier** than Conrad hotel. Look at this lovely restaurant.

Angela: On the other hand, Conrad hotel is a five star hotel and it has everything. There is even a hairdresser in it. I think it is **more relaxing** than Alba hotel.

Mike: I agree with you. However, Alba looks **cozier** than Conrad. It really has warm atmosphere.

Angela: What do you think about the rooms?

Mike: I reckon Conrad's rooms are **larger** and **nicer** than Alba's.

Angela: Probably. Alba's rooms are looking at the

river. So their view can be **more beautiful** than Conrad's.

Mike: Alba is only five-story high. Conrad is much **higher** than Alba. I think a view from a Conrad's room will be great.

Angela: Maybe. Both hotels have advantages and disadvantages. I can't decide on one of them.

Mike: Let's go to Conrad Hotel. It's **bigger** and has a great swimming pool. I think the weather will be **hotter** than now when we get there. This swimming pool will be awesome for us.

Angela: Al right, let's go to Conrad then. Also, their rooms look much **cleaner** than Alba's.

Decide if the statements are true or false.

1. Conrad hotel isn't a small hotel.
2. Conrad hotel hasn't got many facilities.
3. Alba hotel hasn't got a lot of rooms.
4. Conrad hotel is a cheap hotel.
5. Alba hotel has a warmer atmosphere than Conrad hotel.
